

SPOT LIGHT ON Nurse Call and Staff Attack

Nurse Call and Staff Attack are critical safety systems in many different types of buildings and work to protect vulnerable people.

Police
Stations

Nursing
Homes

Schools

Good Design Practise

Hard Wired Call
points

Nurse Call and Staff Attack systems can be based around fixed call points. These systems offer excellent robustness but can fail to offer system flexibility and complete coverage as people move around the building. To overcome some of the problems with fixed units, push buttons can be connected, on flexible leads, to give extra range e.g. to bed head.

Wireless Call
Systems

Wireless call systems give patients and staff the ability to call for help wherever they are in a building. The system involves installing individual receivers throughout the building to create zones so that people can be easily located.

Display Panels

Easy to interpret display panels are critical for a fast and efficient staff response as they relay important alarm information. In addition to fixed display panels, mobile paging units are an excellent way of alerting staff members no matter where they are within the building.

Indicator Lights

Indicator lights are a critical visual aid to direct staff to the location of an incident. Areas of a building can be linked to individual lights to provide visual directions for staff as they move through a building, overdoor lights can then be used to identify specific rooms.

Integration with
Disabled Toilet
Alarms

Nurse Call and Staff Attack systems integrate seamlessly with disabled toilet alarm systems so that any activation of the toilet alarm is shown on the same display panel as the other systems.

Integration with
other Systems

Nurse Call and Staff Attack systems are commonly integrated with other systems including drug cupboards, exit doors and doors leading to stairs, thereby providing a more complete management system.

Alarm
acknowledgment

When a person reaches the location of the call, the system should be designed so that the alarm can be acknowledged by the attending member of staff or further help summoned with the activation of an alternative button.

Manufacturers of Nurse Call and Staff Attack

Various manufactures supply Nurse Call and Staff Attack systems. Our preferred manufacturer supplies integrated nurse call, wireless staff attack, toilet alarms as well as door and drug cupboard monitoring. We are happy to provide a demonstration to you or your client of the equipment we install to show its effectiveness and ease of use.

Seeing is believing – ask us for a complete system DEMO .

Alarm and Communication Systems are always happy to help with the design of any of the systems we install. If you need any information or advice please contact Matthew Jefferson -

Communication Systems

- Intercoms & Telephone Systems
- Electronic Signage
- Radio Printing & 2 way radios
- Nurse Call
- Public Address
- Fire Alarm Voice Evacuation
- Background Music
- Doctor/ Reception/ Patient Call
- Refuge Intercoms
- Queuing Systems

TV/ Radio/ Satellite

- Home Entertainment
- NetworkingVoice / Data Systems
- IRS – TV/Radio/Satellite

Maintenance

- Fully comprehensive
- Labour only
- Yearly check
- For 1/ 3/ 5 years
- Maintenance agreements and repair facilities offered on systems not installed by ACS

Fire Alarm & Security Systems

- Fire Alarms
- Intruder
- Personal / Staff Attack
- CCTV
- Access Control
- Door Automation
- Automatic Gates/ Barriers

Specialist Solutions for: Academies, Colleges and Schools

- Announcements / Class Change Signals
- Projectors and Bulbs
- Sound Systems - portable & fixed
- Special Effects Lighting
- Interactive Whiteboards – SMART & Promethean
- Security & Safety
- Electronic Signage & Messaging TV
- Data & Computer Networks
- Specialist Equipment & Furniture
- Disposal of Redundant Electric/ Electronic Equipment
- Synchronised Time Clocks
- TV & Satellite Systems

DDA Compliance

- Induction Loops and Infra Red Systems for the Hearing Impaired installed in Reception desks, Multi Purpose Rooms, Function Rooms, Churches, Classrooms
- Refuge Area Communication Systems
- Soundfield Systems for Schools, Colleges
- Accessible Alarms for toilets, showers, changing rooms
- Automatic Door Operators

Corporate Solutions

- Training Room AV Equipment
- Lecture Theatre AV Equipment
- Boardroom AV Equipment
- Conference Room AV Equipment
- AMX Control Systems
- Electronic Signage & Messaging TV
- Synchronised Clocks
